Dear Valued customer:

This is a letter confirming as of 04-13-2019 we have completed 36 units. See attached documents for exact unit numbers. We will have all the reaming units completed by June 5th. The contractor has all the units scheduled and materials in stock and ready to complete the project. We know this is a very time sensitive situation and that the utmost urgency is needed. With continuing communication and work efforts this job will be completed on time.

In best regards
R W Schoolfield II
